

Shaktiman GRIMME Windrower- 200

(2- Row Potato Harvester with Centre Discharge)

Easy for picking of potatoes as negligible clods appear in harvest

3 times more harvest capacity than conventional digger

Ability to lift 100% potato from ridges in one pass

First time in India -2 web for better sieving

Robust machine with zero bruising zero damages on potatoes harvested

Enhanced efficiency with low maintenance

Root Crop Solutions

SGWR - 200

Windrowing

Superficial disposal of the harvested potatoes on the ground for further drying.

Well proven digging units

The drive and digging units are taken from proven 2-row harvester technology

Second web Foldable

For safer road transportation and working even in smaller size field. Second main can be folded and locked.

For heavy digging conditions

A mechanically adjustable rotary agitator ensures additional gentle sieving on the second main web. Thus, the sieving performance is increased, especially under heavy digging conditions.

Easy to Maintain

For changing conditions: The main webs of the SGWR 200 are fitted with web joiners with wear bushes. This extends the life of the web and allows for easy and quick changing of web sizes when conditions demand it.

Shaktiman GRIMME Windrower- 200

Tractor Mounted Machine, with Hydraulic Cylinder second web folding for improved handling and manoeuvrability on headland
